The brainchild of Jet and Daniel, both lovers of nudism, together they will show you Puerto Vallarta like no one else!

Activities include nude snorkeling, exploring the jungle, sunbathing, mingling games, taking photos and more all while having your cocktails refreshed by our lovely local gay nude tour guides. The secluded nude beach is not a typical tourist destination with plenty of privacy in a beautiful beach jungle cove.

## **Warning:**

It is highly advised to not drink heavily the night before. Being hungover on a boat is never fun. Meclizine is a non-drowsy Dramamine equivalent medicine that is recommended to be taken 15 minutes prior to boarding if you are prone to seasickness.

During the rainy season months of June to October, rescheduling may occur due to poor weather. You will be notified on the morning of the tour if the tour is rescheduled.

## **Access to our nudist beach:**

Jet's nudist beach does not have a dock and is only accessible by boat. We can unload directly onto the beach as long as it is safe to do so and if the ocean conditions permit us to do so. Swimming is necessary if seas are rough and the boat cannot dock onto the beach. There are other activities to do in the area that are public in the rare case we cannot access the nudist beach.

It is important that you are agile enough to hop on and off to the beach from the boat or in rare chances we have to swim to the beach.

Please be aware that ocean conditions vary here in Puerto Vallarta and you may experience choppy waters or calm seas, depending on the day and time of year. Which also affects visibility for snorkeling.
